

Video Wall Management & AV Distribution Made Simple

ANY SOURCE. ANY DISPLAY.

Control what you see.

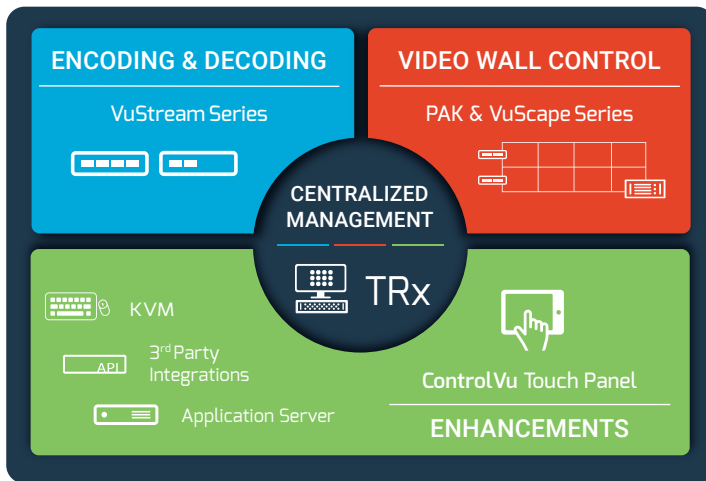

VuWall

The VuWall Ecosystem

For Hybrid and Interoperable Unified Visualization

VuWall provides a complete ecosystem of interoperable products built on a unique standards-based architecture that provides the most effective distribution of visual information, from any source to any display or video wall, throughout organizations.

At the center of the ecosystem is the TRx Centralized Management Platform. It bridges AV, IT and IP systems ensuring interoperability and ease of use, simplifying AV-over-IP deployments, thus reducing deployment time and integration risk.

- Capture** Grab content in any format, decode any stream, and aggregate with local apps.
- Distribute** Deliver content from any source to any video wall with simple drag-and-drop.
- Visualize** Efficiently aggregate content on single displays or multi-surface configurations.
- Manage** Create custom control panels to operate your visualization system from anywhere.

Increasing Productivity and Enhancing Visualization Experiences in Professional and Mission-Critical Applications

VuWall simplifies workflows and increases operator efficiency with interoperability and ease of use by facilitating the distribution of visual information from any source to any single display, multi-display, video wall, or KVM operator desktop — all through easy drag-and-drop operations or customizable control panels.

TALK TO OUR VIDEO WALL EXPERTS We're here to help

VuWall is dedicated to developing innovative technology that is simplifying AV-over-IP deployments in control rooms and corporate workspaces.

We are committed to helping you succeed. Our team of experts provides the tools and support you need to select the right technology and ensure that every project is specified properly the first time.
