

BeyondTrust PAM Appliances

Safeguard sensitive data under the trusted security measures you already have in place

Rapid Deployment

Deploy and begin scanning in under 15 minutes

Turnkey, Comprehensive PAM

Everything you need for centralized privilege management comes preinstalled, pre-configured, pre-tuned, and pre-licensed

Low Total Cost of Ownership

Buy the BeyondTrust appliance once, then get support and upgrades for a low, annual maintenance fee

BeyondTrust® offers a full line of privileged access management appliances. These appliances provide multi-platform network discovery, centralized policy enforcement, least privilege enforcement, automated risk assessment, and powerful reporting, compliance, and regulatory audit capabilities.

PAM Appliances

BeyondTrust U Series - 20 (Physical)

This appliance delivers pre-installed and pre-configured privileged access management capabilities, combining BeyondTrust's Password Safe, Privilege Management for Windows, and BeyondInsight for Unix/Linux (BIUL) under the BeyondInsight™ centralized management, reporting, and analytics console. This single-unit, rack-mount appliance reduces the time to implement integrated privileged account, compliance, and incident management capabilities across the enterprise.

BeyondTrust U Series - V20 (Virtual)

A pre-installed and pre-configured virtual appliance for privileged access management with all the capabilities of the U Series - 20 rack-mountable appliance. This virtual appliance is fully licensed and is available for Microsoft Hypervisor-V and VMware ESXi and NSX.

BeyondTrust U Series - 20 SQL Free (Physical) & V20 SQL Free (Virtual)

Offers the same benefits of a U Series - 20, but with a more cost-effective option for customers that wish to use an external database. The U Series - 20 SQL Free can also be deployed as a multi-role appliance for granular, distributed functionality and enhanced scalability to meet the demands of any enterprise environment.

BeyondTrust U Series (Cloud)

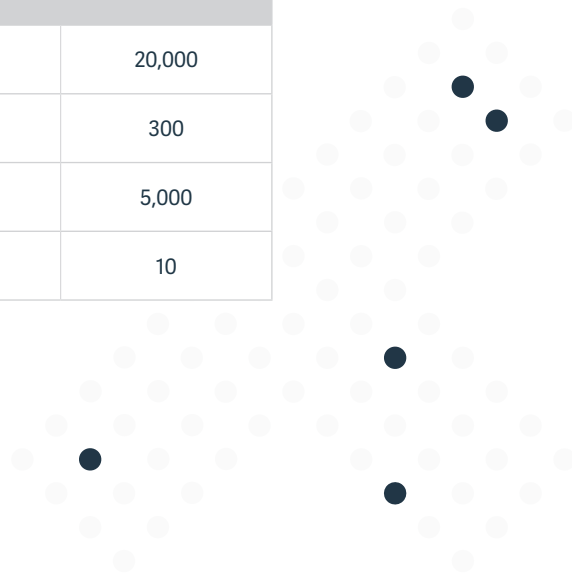

All the features found in the physical and virtual BeyondTrust U Series are also available in the AWS and Azure Cloud Marketplaces.

Simplify integrations, enhance user productivity, and maximize IT and security investments with BeyondTrust PAM appliances.

Functionality	U Series - 20 SQL Free	U Series - 20
